@JohnsonThought1

Settlement talks broke down with [Clearview.AI](#). I offered a very generous price to acquire the company but was rebuffed.

Unfortunately Hoan Ton-That continues to instruct his attorney Ron Giller to be complicit in Ton-That's securities fraud and criminality.

I am committed to a just settlement of the [Clearview.AI](#) matter on behalf of the public, our country, & the requisite shareholders and stakeholders.

We will now begin to increase the pressure on the board, which includes representatives of the UAE & Hal Lambert.
